

Keep birds off billboards and signs

# Billboard PRO

Programmable Ultrasonic and sonic repeller

Unique combination of harassments creates a **menacing environment** that scares birds away for good.

- **Harmless.** Billboard PRO's sounds chase away the birds without harming them.
- **Heavy-duty "surround sound".** Separate control box plus four powerful directional speakers (each with 100' of wire) offer greatest all-around flexibility.
- **Easy Operation.** 110vAC electricity, adaptor included.

**COVERS**  
one entire sign  
or billboard, any size  
(or equivalent)

# Billboard PRO Protects

## Billboards • Towers Signs • Roofs • Etc.

Targets pest birds with an unrelenting combination of species-specific distress cries, predators, general harassments, and newest-technology ultrasonic waves.

- Distress Cries target Starlings, Gulls & Pigeons
- 3 Predator Cries add terror and realism
- 3 Harassments are an extra incentive to leave
- Powerful Ultrasonics round out the sound attack

### SIGHT & SOUND WORK TOGETHER

Billboards, signs & towers are particularly attractive to birds. **Billboard PRO system includes three visual scares to frighten the birds in a multi-sensory assault:**

**Irritape** iridescent holographic ribbon

**Terror Eyes** holographic-eye repeller

**Prowler Owl** realistic aerofoil-wing predator.
